**Unleash your child's creativity in an inspiring and nurturing atmosphere!**

Children will have fun drawing, painting and letting their imagination run free!

In small art classes all over Hong Kong, children will be guided through themed projects and taught the fundamentals of drawing, color mixing, painting techniques and even some interesting bits of art history.

Pitter Painter painting classes are developmentally- appropriate and designed to give children a central idea to start from and the room to take this idea as far as their inspiration, little fingers and loads of paint will take them.

#### **Painter Tots(18–36 months)**

Through the tactile experience of painting, children will learn different concepts first-hand. Each course revolves around a central theme and in each lesson, we complete a unique painting. We play different painting games and use a wide variety out-of-the-box tools and imaginative painting techniques to make lines, shapes, colours, textures and more!

#### **Kindy Painting (3-5 YRS)**

Pitter Painter Kindy classes are exemplified by a cozy atmosphere where kids have fun and personal creativity is applauded. We take project ideas, inspired by the masters and the children's interests, and turn the clock back a few years to give your preschooler a painting class that's made just for them. Projects are creatively-themed and developmentally appropriate. Lessons in art fundamentals are hands-on and disguised as something playful.

#### **Primary Painting (5-11 YRS)**

Primary-school aged children will have fun drawing, painting and letting their imagination run free. In small classes, they will be guided through creatively-themed projects and taught the fundamentals of drawing, color mixing and painting techniques and even some interesting bits of art history. Our lessons are designed to give kids a central idea to start from and the room to take this idea as far as their inspiration, little fingers and loads of paint will take them.

#### **Drawing and Beyond (4-9 YRS)**

Our Drawing and Beyond art class empowers little artists to bring their vision to life by giving them the skills to wield their pencils with confidence and let their imagination take shape. We'll play doodle games, take on different drawing different subjects each class and, in the process, intuitively learn about composition, lines and form.
